CHEERS TO 2020

If you can't conclude the year without raising a glass with your work pals, check out **The Nude Wine Company's** virtual wine tastings. For a minimum of 10 people, the **'Wine & Craic'** virtual events are casual and laidback, making a refreshing change to the Zoom meetings we've all had to endure. Pick up some tips for selecting and tasting wine, but with a focus on socialising rather than wine academia, making it an ideal at home entertainment option for staff or clients. For the tasting, two bottles of wine are delivered to your door prior to the Zoom call. Prices start from €60 per head for two people. The Nude Wine Company specialises in organic, vegan and natural wines from around the world, with luxury gift boxes and hampers now available.
